CHAPTER 1.0

S U M M A R Y A N D C O N C L U S I O N S

A road was constructed across the southeast corner of the MID claims by Canamax Resources Inc. during August, 1985, to gain access to their neighbouring HOT claim block. This road will be extended to the Spider Swamp Showing on the MID 220 claim. Canamax Resources Inc. is a joint venture partner on the Midway property.

CHAPTER 2.0

I N T R O D U C T I O N

The Mid Claim Group lies south of the Rancheria River approximately 85 km west of Watson Lake, Y.T. Access to the claims is provided on the west side of the claim group by the Tootsee River road, originating at km 1128 on the Alaska Highway, and to the south central area by a four-wheel drive road which begins at km 18.8 on the Tootsee River road (Figure 1). The claim group consists of the Mid 1-272 two-post claims and fractions staked in 1981, 1982 and 1983 by Cordilleran Engineering for Regional Resources Ltd., Amax of Canada Limited and Canamax Resources Inc. (Figure 2). The status of the claims is given in Table 1.

During the 1981 field season the Mid claims were geologically mapped at 1:5000 scale, 10.5 km of cut baseline and 126.4 km of blazed and flagged cross-and-tie-line were established, and 2,546 soil samples were collected and analyzed for Ag, Pb, Zn and Ba. Three lines (3.9 km) of Pulse EM and gravity surveys were conducted over one geochemically anomalous area.

The 1982 program on these claims involved cutting two grids (14.1 km) as control for an expanded Pulse EM survey over the Big Swamp area. In addition, the Midway property was aerially photographed at 1:20,000 and 1:40,000 scales, and orthophoto maps produced at 1:10,000 scale.

A four-wheel drive road was built during 1984 from the Tootsee River to the Big Swamp Barite (Y.T.) and Ewen Barite (B.C.) showings.

CHAPTER 3.0

1985 PROGRAM

Canamax Resources Inc., one of the Midway Joint Venture partners, constructed an access road from the Ewen Barite Showing on the Midway property to their HOT claim block between August 3 and 4, 1985. This road crossed the MID 66, 68, 83, 84, 101 and 102 claims (Plate 1). It was built with a D-8 crawler tractor leased, with operator, from Jedway Enterprises Ltd.

2700 m of road was built on the MID claims, as shown in Table 2. The road was approximately 4 m wide and well graded by the operator. Small patches of permafrost were encountered on the MID 101 and 102 claims. Canamax spent \$2025.33 on the MID claims.

Table 2

METRES OF ROAD, MID CLAIMS

<u>Claim</u>	<u>Metres</u>	<u>Claim</u>	<u>Metres</u>
Mid 66	470	Mid 86	225
68	535	101	250
83	480	102	<u>285</u>
84	455		2700

A prospecting crew found limestone-hosted galena and sphalerite (the Spider Swamp Showing) on the MID 220 claim during the 1984 season. The road built by Canamax will be extended from the MID 86 claim to this showing in the future.

CHAPTER 4.0

COST STATEMENT

Following is a statement from Canamax Resources Inc. showing that they spent \$2170.00 on 15 hours of Cat time plus two days room and board. Of the 15 hours, 14 were spent on the MID claims.

$$\frac{\$2170}{15 \text{ hr}} \times 14 \text{ hr} = \$2025.33 \text{ spent on MID claims}$$

From Table 1, 2700 m of road was built.

$$\frac{\$2025.33}{2700 \text{ m}} = \$0.75/\text{m}$$

Costs allocated to each claim are:

<u>CLAIM</u>	<u>METRES</u>	<u>COST</u>
MID 66	470	\$352.56
68	535	401.31
83	480	360.06
84	455	341.31
86	225	168.78
101	250	187.53
102	<u>285</u>	<u>213.78</u>
	2700	\$2,205.33

STATEMENT OF QUALIFICATIONS

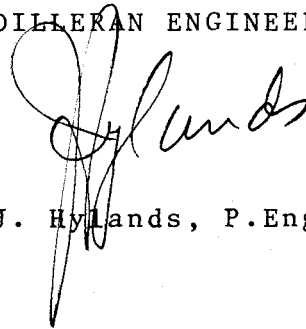

I, James J. Hylands, with a business address at
1980 - 1055 West Hastings Street, Vancouver, British Columbia
V6E 2E9, do hereby certify that I have examined the road work
on the Mid claims.

I also certify that:

1. I am a graduate of the University of British Columbia, Vancouver
(B.A.Sc. Geological Engineering, Option 1, 1966).
2. I have engaged in the study and practice of mineral exploration
since graduation, in Canada, the United States and the
Philippines.
3. I am a Professional Engineer registered in the Province of
British Columbia.
