-----------------------	---

INTRODUCTION

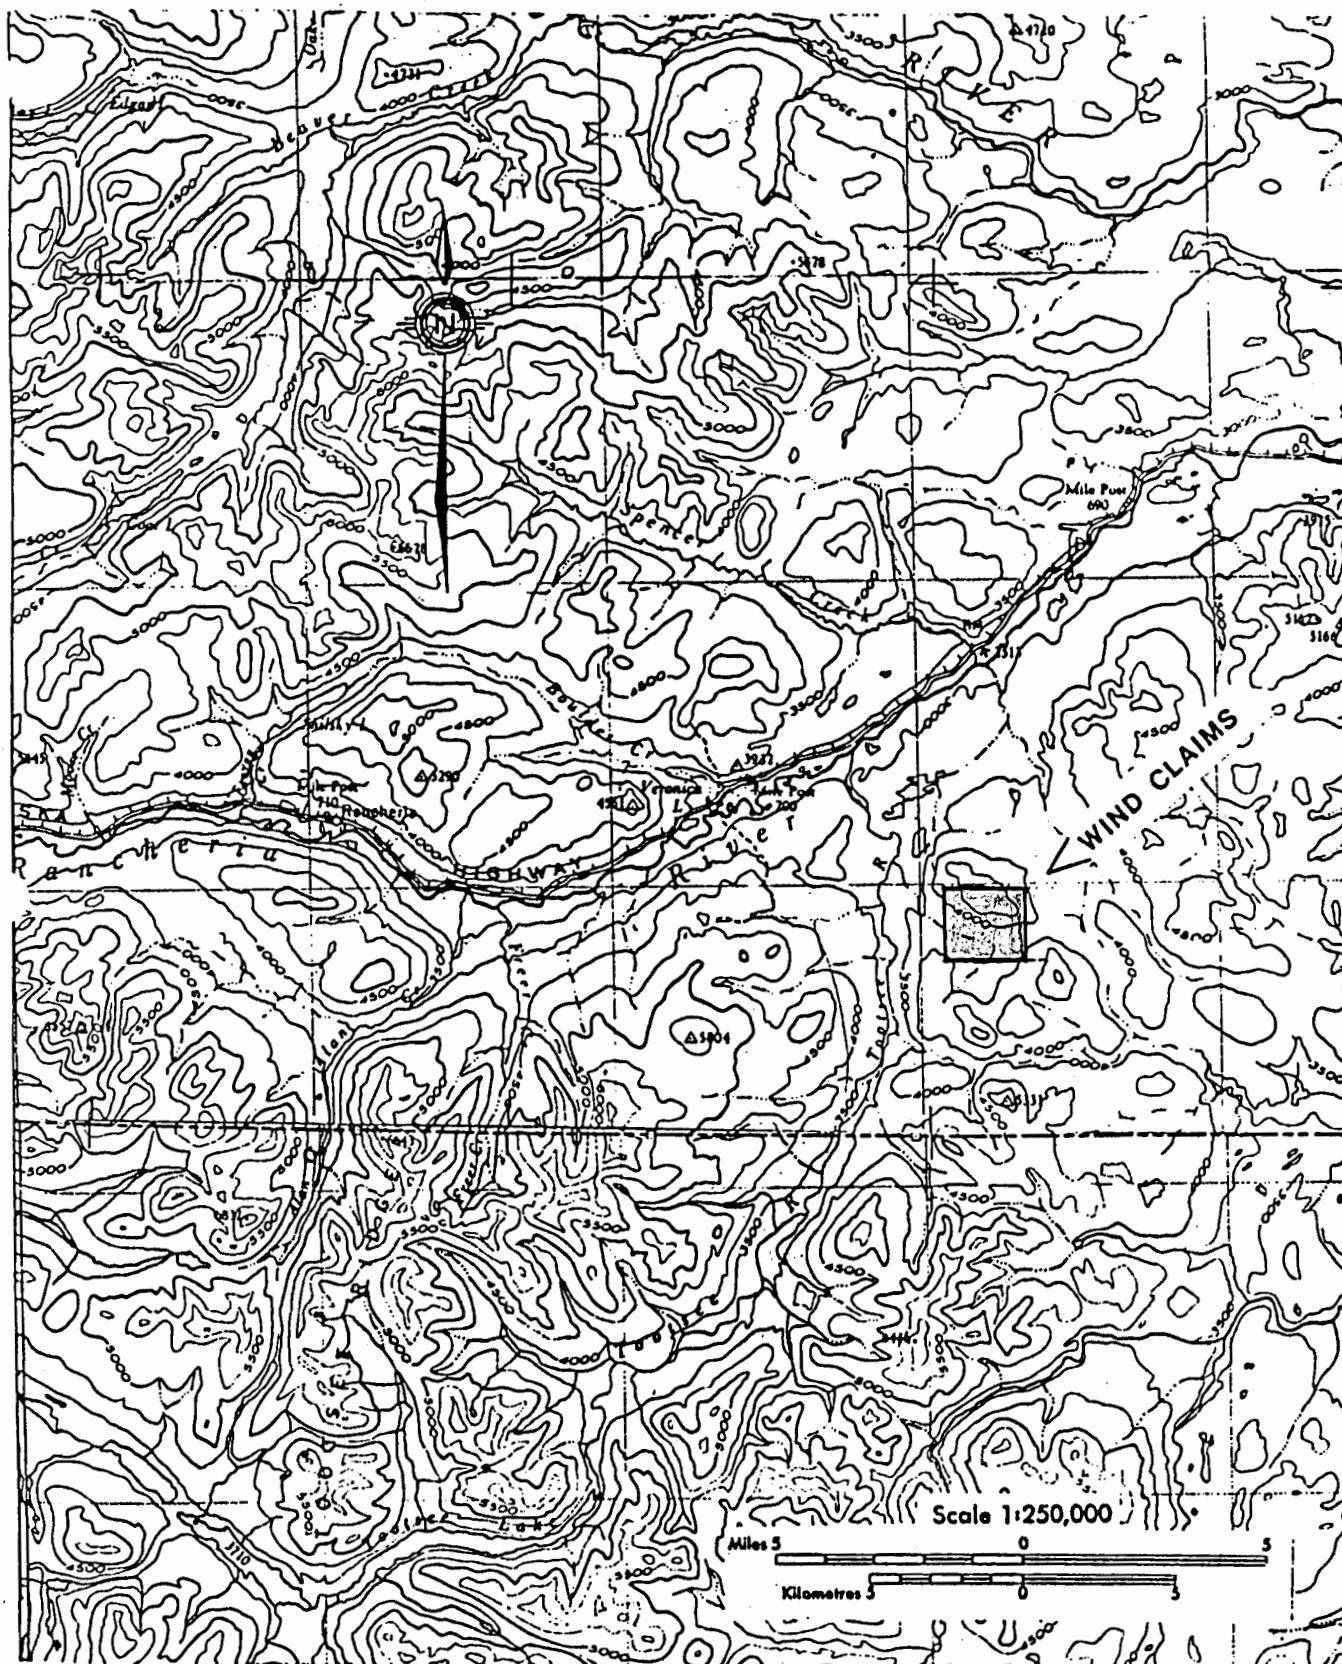

At the request of J.M. Blair, President of Beaver Resources Inc., a line cutting project was undertaken on the Wind 1-30 claims. During the course of this work, a total of 40.5 km of line was established with the aim of completing geological mapping, soil sampling, magnetometer and VLF-EM surveys in 1986.

LOCATION AND ACCESS

The claim block is located approximately 85 km west of Watson Lake, immediately south (6 km) of the Alaska Highway (Figure 1). Rancheria, the nearest community is located 12 km to the west. The Midway Project access road comes to within 3 km of the western boundary of the claim block. However, for the purpose of exploration, this property is best accessed by helicopter.

CLAIM INFORMATION

At present the claims are held in good standing by J.M. Blair of Beaver Resources Inc., located at Suite 612, 475 Howe Street, Vancouver, British Columbia, V6C 2B3. For the Wind 1-18 Claims (see Figure 2 for record numbers), the expiry date is February 9, 1986, and for the Wind 19-30, it is February 10, 1986. These claims have been grouped under grouping certificate number 3486 into two groups consisting of the Wind 1-16 and Wind 17-30.

SUMMARY OF WORK COMPLETED

On the Wind claims, a total of 15 lines, 2.6 km in length, were established, off a 1.9 km north trending base line (Figure 3). In total, 40.5 km of line were established for the amount of \$7,729.25. This work is being claimed under Section 7 of the Schedule of Representation Work to give the Wind 1-16 claims two years assessment credit and the Wind 17-30 three years.
