Dear Ms. Perry,

Re: Application for Certificate of Work
OM and MUG Claims

Further to your request, we are submitting the following information in order to seek approval of our application for Certificate of Work based on line cutting and picketing.

The line cutting and picketing was carried out to provide control for geochemical soil surveys, geophysics and geological mapping.

The attached map shows the location of the base lines and cut and picketed lines. Pickets were established every 50 m on both base lines and section lines. Each picket was labeled with a metal tag inscribed with the co-ordinates of the picket.

MUG Claims

1.8 kilometers of base line and 1.35 kilometers of lines were established on the MUG Claims. The grid was established on June 27 and June 28, 1999. A base map showing the claims outline and grid on a topographic base at a scale of 1:10,000 was drawn in October 1999. One day was allocated to preparation of the MUG Claims portion of the map.

OM Claims

2.4 kilometers of baseline and 800 m of line were laid out from June 23 to June 26, 1999. Additional grid work was carried out after the anniversary date (June 29, 1999) of the claims and as a result credit for that portion is not applied for. A base map showing the claims outline and grid on a topographic base at a scale of 1:10,000 was drawn in October 1999. Two days were allocated for preparation of the OM Claims portion of the map.

Attached is a statement of account showing a breakdown of the costs with receipts. Costs allocated to the MUG Claims are \$1,010.95 per day for 2 days (June 27 & 28, 1999) for a total of \$2,021.90. Costs allocated to the OM Claims

are \$1,010.95 per day for 3 days (June 23, 24 and 26, 1999) for a total of \$3,032.85.

I hope this information meets your requirements.

Yours truly,
