

**Survey and Equipment:**

- Survey flown on July 20, 2011 to July 21, 2011.
- Survey Base: Black Hills Creek, YT
- Scintrex CS-3 cesium vapor magnetic sensor used to sample the Earth's magnetic field at 10Hz.
- All radiometric data sampled at 1Hz by 16.8L of NaI downward looking synthetic crystal and 4.2 L of upward looking synthetic crystals.
