

TMI (nT)

Survey and Equipment:

-Survey flown on July 21, 2011.
-Survey Base: Black Hills Creek, YT.

-Scintrex CS-3 cesium vapor magnetic sensor used to sample the Earth's magnetic field at 10Hz.

-All radiometric data sampled at 1Hz by 16.8L of NaI downward looking synthetic crystal and 4.2 L of upward looking synthetic crystals.
