

- Lithology Legend
- |  |                                |
|--|--------------------------------|
| Apilite (ap)                             | Limestone (ls)                 |
| Argillite (arg)                          | Massive Hematite (mxHS)        |
| Basalt (bs)                              | Massive Magnetite (mxMG)       |
| Black shale (shl bk)                     | Massive Sulphide (mxSX)        |
| Chaotic Breccia (bhtc)                   | Metasomatised Sed. Rocks (mts) |
| Chert (cht)                              | Mudstone (mdst)                |
| Conglomerate (cngr)                      | Phyllite (ph)                  |
| Diorite (di)                             | Quartzite (qtz)                |
| Dolomite/Dolostone (dol)                 | Sandstone (sst)                |
| Fault Breccia (flbx)                     | Schist (sch)                   |
| Fault Gouge (fltg)                       | Shale (shl)                    |
| Gabbro (gb)                              | Shear Zone (sz)                |
| Heterolithic Breccia (bht)               | Siltstone (slts)               |
| Heterolithic Breccia (platy) (PLATY bht) | Siltstone/Mudstone (slts/mdst) |
| Heterolithic/Homolithic Breccia (bhl,m)  | Slate (slt)                    |
| Homolithic Breccia (bhm)                 | Syenite (sy)                   |
| Homolithic Breccia (dolomitic) (bhmc)    | Talus (talus)                  |
| Homfels (hf)                             | Vein (vn)                      |
| Lamprophyre (lamp)                       |                                |

- Symbols & Lines
- |  |                                       |
|--|---------------------------------------|
| Bedding - top known (inclined, vertical, overturned) | Alteration Contact - Defined          |
| Foliation (inclined, vertical)                       | Alteration Contact-Approx./Inferred   |
| Crenulation foliation (inclined, vertical)           | Bedding Trace                         |
| Vein (inclined, vertical)                            | Fault                                 |
| Joint / Fracture (inclined, vertical)                | Fault - Approx./Inferred              |
| Fault (inclined, vertical)                           | Fold Axial Trace                      |
| Dyke (inclined, vertical)                            | Geological Contact - Approx./Inferred |
| Flow Foliation (inclined, vertical)                  | Geological Contact - Defined          |
| Fold Axis (Unknown, F1, F2)                          | Unconformity                          |
| S Folds  | Undefined                             |
| Z Folds  |                                       |
| Glacial Striations                                   |                                       |
| Kinematic Indicator (dextral, sinistral)             |                                       |
| Shear Zone (dextral, sinistral)                      |                                       |
| Slickenside Lineation                                |                                       |
| Anticline  |                                       |
| Syncline   |                                       |
| Stretching Lineation                                 |                                       |
