TMI (nT)

**Survey and Equipment:**  
-Survey flown on August 28, 2011.  
-Survey Base: Twin Creeks, North Canol Road, YT.  
-Scintrex CS-3 cesium vapor magnetic sensor used to sample the Earth's magnetic field at 10Hz.  
-All radiometric data sampled at 1Hz by 16.8L of NaI downward looking synthetic crystals and 4.2L of upward looking synthetic crystals.

**Northern Dancer Uranium Corp.**

ET Block  
Total Magnetic Intensity with Plotted Flight Lines
