TMI (nT)

Survey and Equipment:
-Survey flown on September 18, 2011.
-Survey Base: Twin Creeks, North Canol Road, YT.
-Scintrex CS-3 cesium vapor magnetic sensor used to sample the Earth's magnetic field at 10Hz.
-All radiometric data sampled at 1Hz by 16.8L of NaI downward looking synthetic crystals and 4.2L of upward looking synthetic crystals.

Northern Dancer Uranium Corp.

HER Block
Total Magnetic Intensity with Plotted Flight Lines
