

**Survey and Equipment:**  
-Survey flown from September 29, 2010 to October 06, 2010.  
-Survey Base: Gimlex Camp, Indian River, YT.  
-Scintrex CS-3 cesium vapor magnetic sensor used to sample the Earth's magnetic field at 10Hz.  
-All radiometric data sampled at 1Hz by 8.4L of NaI synthetic crystal.  
-The survey was flown under variable snow cover.

**Calculated Vertical Gradient (nT/m)**
