

Survey and Equipment:

-Survey flown from October 06, 2010 to October 09, 2010.

-Survey Base: Gimlex Camp,
Indian River, YT.

- Scintrex CS-3 cesium vapor magnetic sensor used to sample the Earth's magnetic field at 10Hz.

- All radiometric data sampled at 1Hz by 8.4L of NaI

synthetic crystal.

- The survey was flown under variable snow cover.
