

LEGEND

- Lower Cambrian**
- PCna **Hyland Group, Narchilla Formation (Arrowhead Member):** Thin bedded shale, including maroon shale
 - PCns **Hyland Group, Narchilla Formation (Senoah Member):** Grey, green, buff argillite, minor thick quartzite and quartz-pebble conglomerate
 - Pa **Hyland Group, Algae Lake Formation:** Limestone, arenaceous limestone, dolostone, argillite, breccia
 - Py **Neoproterozoic - Lower Cambrian**
Yusezyu Formation: Sandstone intercalated with siltstone, typically non-calcareous

SYMBOLS

- Strike & Dip of Bedding
- Strike & Dip of Foliation
- Strike & Dip of Fracture or Vein
- Strike & Dip of Joint
- Strike & Dip of Vein
- Fold Axis
- Slackside
- Z-fold
- S-fold
- Shear Zone
- Fault
- Outcrop boundary
- Rubblecrop / Talus boundary
- Cliff
- Geological contact, defined
- Geological contact, interpreted
- 2012 Diamond drill hole

ABBREVIATIONS

alt	Alteration	mst	Mudstone
ank	Ankerite	o/c	Outcrop
arg	Argillite	Py	Pyrite
As	Arsenopyrite	QPC	Quartz-pebble conglomerate
brecc	Brecciated	Qz Vn	Quartz vein
cal	Calcareous	r/c	Rubblecrop
carb	Carbonate	scor	Scordite
dol	Dolomite	sh	Shale
Ga	Galena	sil	Silicified
Hem	Hematite	silt	Siltstone
lst	Limestone	sst	Sandstone
lss	Limy sandstone	ta	Talus
loc	Local	wk	Weak
mar	Marble
