

This appendix contains all of the certificates of analysis (COA) pertaining to resource definition and exploration drilling at the 2015 KZK Project. Elements analyzed for all of these holes include Cu, Fe, Pb, Zn, Au and Ag, and many of them were also analyzed for Ba and S. A select number of intervals were also analyzed for As, Bi, Hg, Sb and Se. COAs are listed in alphanumeric order, with the first page of each COA indicated in the Page Number column in Table N-1 below.
