## 1. INTRODUCTION

A Total field magnetometer (mag) survey was performed at the Canadian Creek property, Dawson City area, YT within the period July 8-28, 2017. In addition, non-differential GPS readings were taken at regular intervals, subject to satellite reception.

The survey was performed by Scott Geophysics Ltd. on behalf of Cariboo Rose Resources Inc. This report describes the instrumentation and procedures, and presents the results of the survey.

## 2. SURVEY COVERAGE AND PROCEDURES

Total field magnetometer readings were routinely taken at 12.5 metre intervals (reduced to 5 metre intervals in areas with a steep magnetic gradient) and corrected for diurnal variation against a fixed base station cycling at 10 second intervals.

A total of 102.4295 kilometres of mag survey were performed.

The survey results are presented on the accompanying profiles and plan maps. All survey data are archived to the accompanying CD-ROM.

### 3. PERSONNEL

Lise Gagnon was the representative on behalf of Scott Geophysics Ltd. Bob Johnston was the representative on behalf of Cariboo Rose Resources Inc.

### 4. INSTRUMENTATION

Scintrex ENVI proton precession magnetometer were used as the both the field and base units for the magnetometer survey.

GPS readings were taken with a Garmin GPSMap GPS receiver.

Statement of Qualifications

for

Brad Scott, Geologist (GIT)

of

1230 Harrison Way,  
Gabriola, BC V0R 1X2

I, Brad Scott, hereby certify the following statements regarding my qualifications and involvement in the program of work on behalf of Nicola Mining Inc. at the Thule property, Merritt area, BC as presented in this report.

The work was performed by individuals trained and qualified for its performance.

I have no material interest in the property under consideration in this report.

I graduated from the University of British Columbia with a Bachelor of Science degree (Geology) in 2000.

I am a member-in-training of the Association of Professional Engineers and Geoscientists of the Province of British Columbia.

I have been practising my profession in the field of Mineral Exploration since 2000.

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'B. Scott', with a stylized flourish at the end.

Brad Scott
